

Genie USER'S OPERATING INSTRUCTIONS

FOR YOUR SAFETY - READ BEFORE OPERATING

WARNING: IF YOU DO NOT FOLLOW THESE INSTRUCTIONS EXACTLY, A FIRE OR EXPLOSION MAY RESULT, CAUSING PROPERTY DAMAGE, PERSONAL INJURY OR LOSS OF LIFE.

This appliance is equipped with an ignition device which automatically lights the burner.

BEFORE OPERATING after a prolonged time off, smell all around the appliance area for gas. Be sure to smell next to the floor because some gas is heavier than air and will settle on the floor.

WHAT TO DO IF YOU SMELL GAS

- * Do not try to light any appliance
- * Do not touch any electric switch
- * Do not use any phone in your building.
- * Immediately call your gas supplier from a neighbour's phone. Follow the gas supplier's instructions.
- * If you cannot reach your gas supplier, call the fire service.

- * Isolate the appliance with the Service Cock inside. If this is not accessible, isolate at the gas meter.
- * Do not use this appliance if any part has been under water. Immediately call a qualified service engineer to inspect the appliance and to replace any part of the control system and any gas control which has been damaged.

CAUTION: Propane gas is heavier than air and will settle on the ground. Since it can accumulate in confined areas, extra care should be exercised when lighting Propane heaters.

WARNING: There are no user servicable items in this appliance. Do not interfere with any sealed components.

Before Start Up

Keep heater area clear and free from combustibles, flammable liquids and chemicals.

Water must be flowing through the heater during operation. Ensure that system is filled with water and the pump is operating.

Quick Start

Check that the Electricity and Gas Supplies are on. Turn on the Pool Pump. Turn on the Heater with the switch on the Front Panel and set the desired temperature with the Pool Temperature Knob. In a few seconds the Heater will fire.

Summary of Controls (Left to Right)

ON/OFF Switch - Turns the Heater On and Off and resets the Ignition Control if locked out.

Lock/Reset Button - If it is pressed for 2 seconds it locks the Set Temperature so the Pool Temperature Knob is inoperative. To unlock, press again for 2 seconds.

With a short press the Set temperature is displayed. It will flash if the Lock is ON.

Pool Temperature Display - This normally shows the Pool Temperature but also show the Setting Temperature when the Pool Temperature Control Knob is moved. A Setting Dot is displayed whilst it is adjusted. The Display is also used for commissioning and diagnostic purposes. (Page 16)

Pool Demand LED - Green

Off - There is no Pool Heating demand, pool heating is off.

On - There is Pool Heating Demand and the Pool is not up to temperature.

Flashing - The Pool Heating Demand is met, the pool is up to temperature.
